

FRESHLIGHT NEGATIVE IONIZATION BAR

Agriculture

PRODUCT DATA:

Power Usage: 4.8 Watts

Power Factor: 0.99

Input Voltage: 110-130 VAC

Frequency Range: 50–60 Hz

Energy Rating: A

Construction Materials: Alu + ABS, V2

Power Connection: ATEC Fitting, Standard 3 Prong Plug

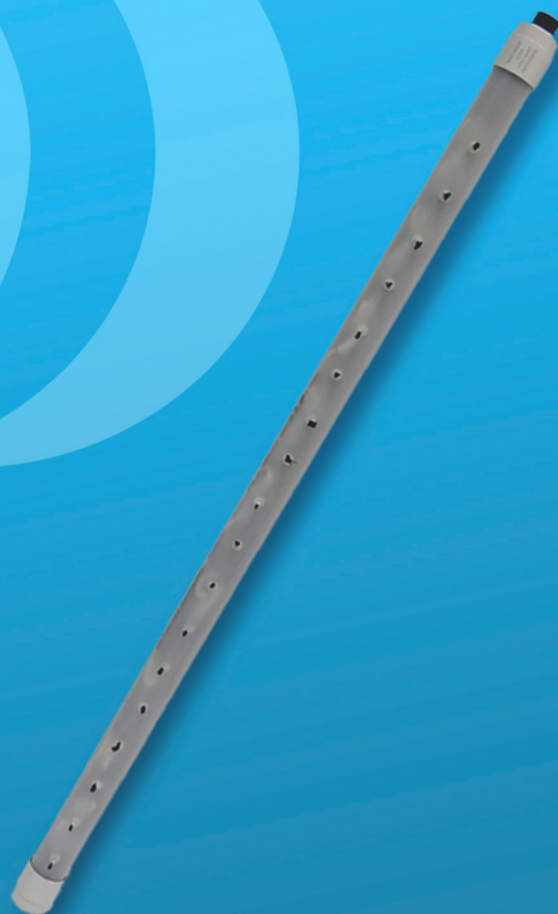

Protection Class: IP-65

Sustainability Rating (LCA): NL Green label score: A

Certificates: CE, RoHS, (UL Pending)

Life Expectancy: 100,00 Hours

Warranty: 10 Years*

FRESHLIGHT'S Negative Ion Bar produces 1 BILLION NEGATIVE IONS PER SECOND

HOW IT WORKS:

FRESHLIGHT'S Ion Bar is NOT a light. Its only function is to produce negative ions that help mitigate and reduce harmful dust and fine dust in the air. It will also help reduce particulate matter.

PLACES FOR USE:

Poultry, swine, dairy, and any other facility with poor air quality.

BETTER AIR • BETTER ANIMALS!

**MANUFACTURER: FRESHLIGHT BV. Netherlands.
