

FRESHLIGHT HBS FULL DAYLIGHT SPECTRUM GROW LIGHT

PRODUCT DATA:

High efficiency, 224 LM/W (SGS Certified)

High Micro Mole: 4.2 μmol (SGS Certified)

Full Light Spectrum: 280 nm to 780 nm

Energy Saving up to 85%

Color Temp: 6400K

Power Rating: 110 watts

Voltage: 90-230 V

Energy Rating: A++

High Power Factor > 0.99

Suitable for use at $-20\text{ }^{\circ}\text{C}$ to $45\text{ }^{\circ}\text{C}$

Sustainability Rating: NL Green Label Score A

CE, RoHS, SGS Certified UL

LM 80 Certified

IP-67

Illumination Angle: Full 180 degrees

Detachable LED multi-converter driver, easy R/R

for extended serviceability and lower operational costs

Very Low Heat Dissipation, Saves Money on Air Conditioning

Life Expectancy: 100,000 Hours

Warranty: 5 full years

110 watts = 24,640 lumen

220 watts = 49,280 lumen

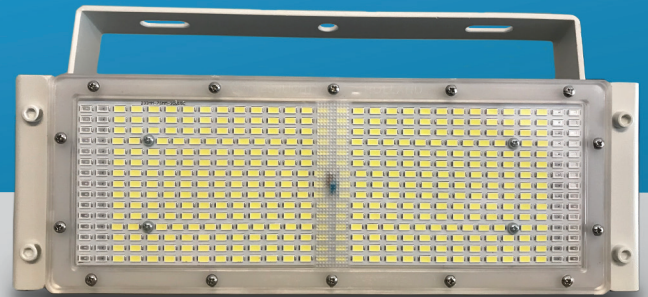

EACH UNIT:

Length: 12"

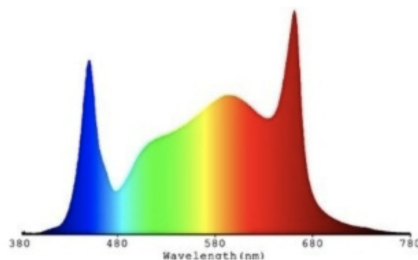

Width: 4 1/2"

Height: 5"

Weight: 4.5 pounds

The **FRESHLIGHT'S HBS Grow Light** delivers Full Spectrum daylight, mimicking true sunlight to 97% efficiency. Producing the broadest light spectrum in the industry, **FRESHLIGHT'S HBS Grow Light**, with its cutting edge technology and the added benefits of UVA, UV B, and IR helps produce more glucose which enables plants to grow/mature faster by expediting the photosynthesis process. **FRESHLIGHT'S HBS Grow Light** provides continuous light (**NO FLICKERING**), which means you get twice as much light, with no plant stress and better nutrient absorption. **FRESHLIGHT'S HBS Grow Light** will provide you with healthier, faster growing plants and more **PROFITS!**

Freshlight closely mimics the spectrum of sunlight. Nature provides the perfect balance of photonic energy for all stages of growth.

MANUFACTURER: FRESHLIGHT BV. Netherlands.
